ARM Microcontroller
AT91FR4081-33CI Cancellation

This letter is to inform you that due to the discontinuation of manufacturing of the AT49BV8011, which is one of the two devices integrated in the AT91FR4081-33CI, the AT91FR4081-33CI is cancelled.

Two replacement solutions are offered:

- AT91FR40162-CI:
  - In production now
  - Documentation available on the WEB
  - Requires a customer PCB redesign
  - Limited software changes required
- AT91FR40161-CI:
  - In development
  - Documentation in preparation
  - Samples planned for mid-January 2004
  - First production shipments planned for April 2004
  - No need for customer PCB redesign
  - Minimal software changes required

Please accept our apologies for the inconvenience caused by this matter.

Jacko Wilbrink
Product Manager ARM Microcontrollers

Please inform you customers accordingly.
