

**KS8995M A / KS8995X A**  
Integrated 5-Port 10/100 Switch Family

**Dear Sales Team,**

The purpose of this document is to up date you on the new KS8995M/X family silicon revision.

With immediate effect all new designs, sample requests and purchase orders should be for the **KS8995M/X A** silicon. The KS8995M/X A silicon is an enhanced version of previous silicon.

For the existing designs, customers can upgrade to the new KS8995M/X by ordering new part number **KS8995M/X A**. Otherwise, customers will continue to receive the old silicon of KS8995M/X.

**New Silicon KS8995M/X A (Rev B)**

Details given in datasheet KS8995M v1.13 and KS88995X v1.12

No current errata sheet required

Backwards compatible with KS8995M/X (except PHY ID update to 0x02)

Order number KS8995M/X A

Rev B will be shown on device

**Old Silicon KS8995M/X (Rev A3)**

Details given in Datasheet KS8995M v1.12 and KS8995X v1.11

A2 to A3 silicon Errata Sheet available

NOT forwards compatible with KS8995M/X A (new silicon)

Order number KS8995M/X (Rev A3 silicon)

Rev A3 will be shown on device.

Please ensure all customers are aware of these changes. If you have any further issues consult your local FAE or Micrel Sales Team.

Sincerely,

**Micrel Ethernet Product Marketing**
