

Process Change Notification

Date of Issue: March 19, 2004

Change Notification No. 4-5000

Last-time Buy Date: June 19, 2004

To: ISSI Customers

From: ISSI-Integrated Silicon Solution, Inc.
2231 Lawson Lane
Santa Clara, CA 95054-3311

Affected Part Numbers: IS93C56, IS93C66 (all part number options)

Description of Change:

New products use 0.35 μ m process technology to improve performance. New feature included: ORG pin for x8 or x16 mode.

Rationale for Change: Customers benefit from the new feature-set and improved memory performance. The improvements of the new devices enable ISSI to continue to provide quality products and meet cost-effective, high-performance expectations.

Date of Change: June 1, 2004

Part numbering change:

IS93C56 \rightarrow IS93C56A; IS93C66 \rightarrow IS93C66A

Estimated Date of Sample Availability:

IS93C56A, May 2004

IS93C66A, May 2004

Qualification & Reliability Data:

Available upon request at the time of sampling.
