

# Product Change Notification

Product Change Notification Number: SC040402A (REVISED)

Date: February 4, 2004

Title: AT25F1024 DIE SHRINK

### Product Identification:

All Packages, Industrial Temperatures (-40 to 85C), and Voltages of the AT25F1024.

### Reason for Change:

- |   |   |                                    |
|---|---|------------------------------------|
| <input type="checkbox"/> Design                 | <input checked="" type="checkbox"/> <b>Processing</b> | <input type="checkbox"/> Logistics |
| <input type="checkbox"/> Manufacturing Location | <input type="checkbox"/> Quality/Reliability          | <input type="checkbox"/> Material  |

### Change Description:

Atmel has performed a die size reduction of the AT25F1024 in the Industrial Temperature (-40 to 85C). The new version device will be manufactured utilizing the 39k (.25u) process versus the 37k (.35u) process for the current AT25F1024. The 39k process is a fully stable and mature process. There has been a change in the way we offer the shrink version, a NEW part number will be created by adding an "A" to the suffix of the part identifier for the shrink: AT25F1024A. The AT25F1024A is pin to pin compatible with the current SPI FLASH 1M, AT25F1024 devices. **To accommodate the growing movement to Lead-Free products, the new shrink will ONLY be available in Lead-Free / Halogen-Free.**

### Identification Method to Distinguish Change:

There will be a NEW part number created by adding an "A" to the suffix of the part identifier for the shrink: AT25F1024A.

### Qualification Data:

- |                                    |  |   |
|------------------------------------|--|---|
| <input type="checkbox"/> available | <input checked="" type="checkbox"/> <b>will be available in March 04</b> | <input type="checkbox"/> not applicable |
|------------------------------------|--|---|

### Samples:

- |                                    |  |   |
|------------------------------------|--|---|
| <input type="checkbox"/> available | <input checked="" type="checkbox"/> <b>will be available in Feb 04</b> | <input type="checkbox"/> not applicable |
|------------------------------------|--|---|

### Quantifiable Impact on Quality & Reliability:

Redesign for shrink and provides customers with a wider temperature and operating voltage range. The new devices are a form, fit and function equivalent of the current devices which meet all databook specifications.

### Estimated Implementation Date\*:

April 21, 2004

### Last Time Buy Date:

July 21, 2004

### Last Ship Date:

December 21, 2004

\*The Estimated Implementation Date is the forecasted date that a customer may expect to receive changed product. This is determined by the estimated date of inventory depletion on the PCN issue date. This may be affected by fluctuations in supply and demand. Consequently, although customers should be prepared to receive changed product on this date, Atmel will continue to ship pre-changed product until a time in which inventory has been depleted. This may result in pre-changed product being shipped to customers after this forecasted date.
