Change Description:

In response to worldwide environmental regulations and as an environmentally responsible company, Atmel is transitioning our Serial EE parts to "Green" material sets. Atmel defines "Green" as RoHS compliant, Pb-free and Halogenated compound-free. Automotive Grade and Extended Temperature products are not affected by this PCN. All parts formerly designated with the standard Industrial Grade of "I" and "J" will now be assigned and marked with a "U" designator. The "U" designator is the Atmel standard offering in Green packages. All Atmel Serial EEPROM product will maintain the same MSL level as previously achieved in the "I" and "J" versions, which for leadframe packages is MSL1 at 260C max reflow temperature. Atmel has fully qualified these packages in conformance to Jedec Std 020C and will label shipping containers in accordance with JESD97. All Atmel Green Serial EEPROM leadframe packages are "backward compatible" with standard Pb-Sn containing solder paste.

Last Time Buy Date: July 28, 2005

Last Ship Date: October 28, 2005

*The Estimated Implementation Date is the forecasted date that a customer may expect to receive changed product. This is determined by the estimated date of inventory depletion on the PCN issue date. This may be affected by fluctuations in supply and demand. Consequently, although customers should be prepared to receive changed product on this date, Atmel will continue to ship pre-changed product until a time in which inventory has been depleted. This may result in pre-changed product being shipped to customers after this forecasted date.
