

Worldwide Marketing Announcement

MMCModem™ GPRS – Embedded Wireless Modems New Models with European Frequency Defaults (900/1800 MHz)

Date: November 28, 2007

Description:

The MMCModem™ GPRS wireless modems are complete, ready-to-integrate communications devices that offer standards-based quad-band GSM/GPRS Class 10 performance. These quick-to-market communications devices allow developers to add wireless communication to products with a minimum of development time and expense.

Key Features:

- GPRS Class 10
- Quad-band GSM 850/900/1800/1900 MHz
- Packet-switched data rates up to 85.6K
- 14.4K circuit-switched data
- Supports Short Message Services (SMS)
- AT command compatible
- SIM Socket
- MMCX antenna connector
- Embedded TCP/IP stack
- Serial interface supports speeds up to 115.2K
- FCC and PTCRB approved
- 5V DC operation
- Two-year warranty
