Red Rocket Inc Announces New EOS brand VLT200 & MVL200 Series Open Frame Power Supplies

Camarillo, California, Feb 21, 2008— Red Rocket, Inc, the leading seller of ultra miniature, high efficiency power supplies, announced today that it has released its new VLT200 / MVL200 Series of open frame, AC/DC power supplies for use in the Medical, Industrial, Networking, and Data-Communications industries globally. The VLT200 & MVL200 Series of single output products are one of the smallest and most efficient 200-watt power supply packages available in the industry today.

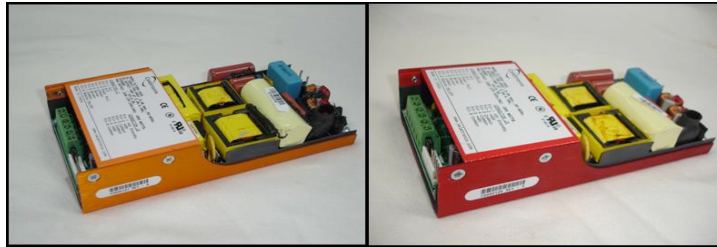

The VLT200/MVL200 Series features universal AC inputs from 90v to 264v, measures a mere 3 inches x 6.3 inches x 1.3 inches, and has a rated efficiency of greater than 87%. It is configured in all popular single output voltages and comes with a 5v standby. Additionally, the M/VLT200 Series meets all major industry and medical EMC and safety specifications, and has a reliability rating of over 150,000 hours mean time between failures. The M/VLT200 Series operates from 0 to 50 degrees Celsius, features low conducted and radiated noise and incorporates remote sense and on/off features.

“The pent up demand we are seeing for this product is staggering.” said David Carley, VP Sales & Marketing of Red Rocket. “The M/VLT200 Series is a strong addition to the EOS brand of high density, high efficiency power supplies required by our customers in the medical, data networking, telecommunications, computing, multimedia, consumer electronics and other high tech industries competing to make their products smaller and better performing,” he said.

The M/VLT200 Series are available to order today and samples are available free of charge for registered business opportunities. The M/VLT200 series is a further evolution of the EOS brand of high end power supplies. The EOS Series of internal power supplies and external adapters are available through a network of manufacturing sales representatives and distributors worldwide. For product availability and quotes, you may find the nearest representative at www.redrocketpower.com.
