

KEEP YOUR LTE MIGRATION ROLLING WITHOUT ANOTHER COSTLY TRUCK ROLL

Meet Digi Remote Manager – Your key to a successful LTE migration.

Update, manage and maintain your new Digi LTE routers with an intelligent and secure device management application, Digi Remote Manager® (DRM). Keep your 2G/3G migration on schedule by monitoring the status and location of all your remote digital assets, old and new, as they are being replaced.

Be sure to keep your data flowing with automated mass updates that will modify and maintain configuration of every field unit, for complete asset tracking and compliance. All without another costly truck roll.

THE 2G/3G SHUTDOWN IS COMING!

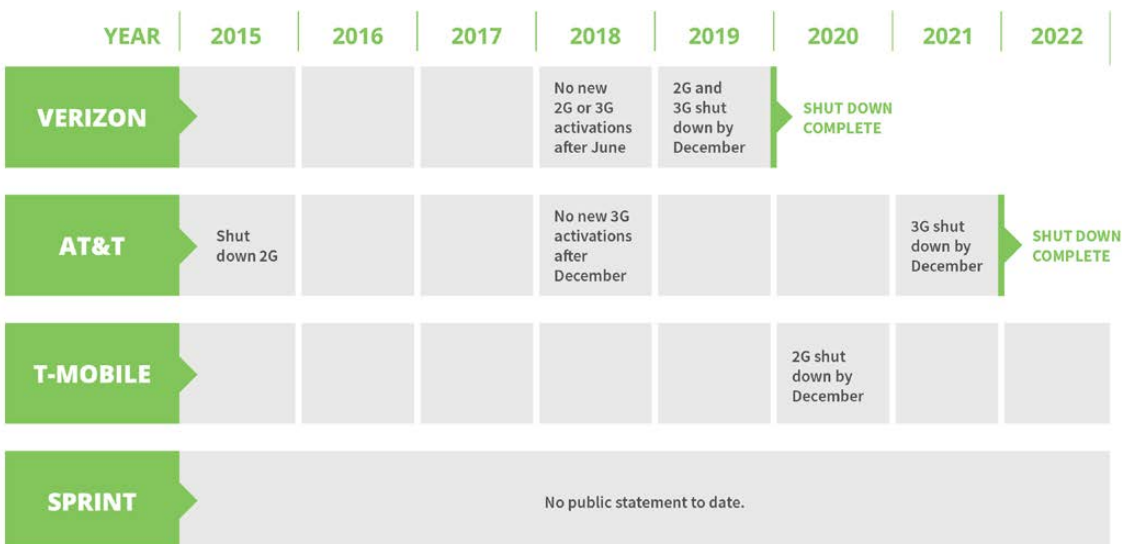

Don't wait for impending network shutdowns in order to get caught up. From site surveys to installation, get ahead and stay ahead with Digi LTE Migration Services.

DIGI IS OFFERING A 30-DAY DRM FREE TRIAL

If you have a large number of devices that require replacement, who better to help you through it than Digi? We have the connectivity expertise, the software applications, the hardware and the service options to make your LTE migration go smoother. How is your plan coming?

APPLICATION FEATURES

- Automate mass firmware and software updates to stay in compliance
- Industry-leading cloud and edge tools for quick device deployment and easier asset management
- Monitor network, device and asset performance and security with bi-directional communications
- Access data from edge device previously out of reach to define where to put business logic

THE RIGHT ROUTER FOR THE RIGHT JOB

It all begins with the right industrial router for the right industrial application. All Digi routers have been enhanced to meet the rigorous demands of the upcoming 2G/3G shutdown.

Ruggedized with advanced RF modules, Digi routers are your wireless backbone for industrial-strength communication, purpose-built with performance-focused options to specifically fit your application need.

No more guessing which router is the right router for the job. Digi has a [router selector tool](#) to make it even easier to determine.

DRM LTE MIGRATION PROMOTION

Sign up for a **FREE 30-day trial**

Bring all the benefits of DRM for 30 days of free access without cost. This includes full functionality of the DRM application as well as Technical Support to help answer any of your migration questions.

SIGN-UP PROCESS

Register up to 100 devices and see how the DRM suite of device management tools can help you meet performance and security requirements. You'll receive more efficient troubleshooting, remote configuration, device monitoring, mass firmware and software updating and cloud and edge tools – all for more rapid deployments.

Order your free trial directly from Digi: 877-912-3444
