Legerity Receives INTERNET TELEPHONY® Magazine's 2006 Product of the Year Award

VeriVoice™ Test Suite Software Recognized for Outstanding Innovation

AUSTIN, TEXAS, Jan. 23, 2007 - Legerity, Inc., the "V" in VoIP!™, announced today that Technology Marketing Corporation (TMC®)'s INTERNET TELEPHONY magazine (www.itmag.com) has named VeriVoice Test Suite software as a recipient of a 2006 Product of the Year Award. INTERNET TELEPHONY has been the VoIP Authority Since 1998™.

Legerity **VeriVoice Test Suite** software is a subscriber line software package for VoIP customer premise equipment, providing the market's most cost-effective and reliable solution for VoIP line test and self-test while at the same time minimizing the cost of ownership for service providers. When deployed in VoIP residential gateways, the automated, remote testing capability of VeriVoice Test Suite eliminates the need for costly truck rolls, which minimizes maintenance costs, improves reliability of service and increases subscriber satisfaction. VeriVoice Test Suite incorporates two test packages that monitor the customer telephone equipment and copper pair leading to it and self-tests to check the VoIP equipment itself. It features the same robust line test capabilities (GR-909 specification) that are implemented in traditional central office line cards.

"This award is a tribute to our VeriVoice Test Suite design team, which worked hard to provide a solution of great value in the marketplace," said Hank Perret, president and chief executive officer of Legerity. "Service providers and enterprise IT managers demand a robust and cost-effective VoIP line test solution like VeriVoice Test Suite to ensure their end-users experience the highest level of voice quality."

"INTERNET TELEPHONY is proud to bestow Legerity with a 2006 Product of the Year Award for its VeriVoice Test Suite software. Each year INTERNET TELEPHONY magazine recognizes companies that have demonstrated excellence in technological advancement and application refinements," said Rich Tehrani, TMC President and Editor-in-Chief of INTERNET TELEPHONY magazine. "VoIP adoption continues to rise and service providers desire a cost-effective voice quality solution to maintain customer satisfaction. Legerity has proven they are committed to quality and excellence while addressing real needs in the marketplace. We're proud to honor their hard work and accomplishments and look forward to more innovative solutions from them in the future."

A full list of Product of the Year winners will be published in the February, 2007 issue of INTERNET TELEPHONY magazine. (www.itmag.com).

About Legerity, Inc.

Legerity is the world's most trusted name in voice integrated circuits (ICs) for high-voltage, analog/mixed signal semiconductor and software technologies. Legerity has years of demonstrated expertise in multiple voice technologies, world-class factory and field engineering support with a "high touch" customer philosophy, and consistent, reliable, high volume supply of premium quality IC components. Headquartered in Austin, Texas, Legerity supports the needs of a global customer base through proprietary semiconductor technologies, superior manufacturing processes, and more than 650 U.S. and international patents. Visit Legerity on the Web at www.legerity.com.

About INTERNET TELEPHONY® magazine

Since the first issue in February of 1998, INTERNET TELEPHONY is the only magazine that focuses on providing information in IP communications technologies. INTERNET TELEPHONY magazine provides readers with the best information necessary to learn about and purchase the equipment, software, and services. INTERNET TELEPHONY offers rich content from solutions-focused editorial content to reviews on products and services from TMC Labs and Miercom. The only BPA-audited publication that's 100% dedicated to providing the highest quality content for the IP communications market, INTERNET TELEPHONY has 55,000 dedicated readers.

About TMC

Technology Marketing Corporation (TMC) publishes four print publications: Customer Interaction Solutions, INTERNET TELEPHONY, SIP Magazine and IMS Magazine. TMCnet, TMC's Web site, is the leading source of news and articles for the communications and technology industries. Ranked in the top 2,600 sites in the world by alexa.com *, TMCnet serves more than one million unique visitors each month. TMC is also the first publisher to test new products in its own on-site laboratories, TMC Labs. In addition, TMC produces INTERNET TELEPHONY Conference & EXPO, The VoIP Developer Conference, VoIP Demo, IMS Expo and Call Center 2.0 Conference. TMCnet.com publishes more than 15 topical online newsletters. For more information about TMC, visit www.tmcnet.com. (* alexa.com is an amazon.com company that ranks Web sites by their traffic levels. Neither alexa.com nor amazon.com is affiliated with TMCnet.)
